

JOB DESCRIPTION

FIRM: Sitton Energy Solutions

JOB TITLE: Energy Engineer

JOB GRADE: Salaried

LOCATION: St. Louis Region

SUMMARY:

Sitton Energy Solutions, a growing, innovative energy consulting firm is looking for engineers with a passion for energy efficiency, sustainability, learning and collaboration. Individuals selected for this position will be key members of our team focused on reducing energy usage and operational costs through commissioning, retro-commissioning and energy auditing of commercial and institutional facilities.

PRIMARY DUTIES AND RESPONSIBILITIES:

- Participate in detailed energy engineering studies of complex projects of unlimited scope and size
- Generate and interpret energy models and perform energy savings calculations
- Perform field investigations
- Prepare technical reports
- Prepare correspondence and documentation in accordance with established company procedures
- Manage project plan to ensure scope, schedule, budget and expectations are met
- Coordinate and prioritize workload to ensure project deadlines are met
- Develop and maintain positive relationships with internal and external clients

EDUCATION AND EXPERIENCE:

Four (4) year college degree plus two years related work experience; or equivalent work experience

SKILLS & ABILITIES:

- Advanced understanding of building systems and energy use including: HVAC, plumbing, lighting, and/or building automation systems
- Advanced knowledge in Microsoft Office programs: Word, Excel and Powerpoint
- Strong math skills
- Strong organizational, verbal, writing, listening and collaboration skills

TO APPLY: email resume to Erik Merker @ emerker@sittoncg.com.
